Voltx Power

Deemed Rates for Electricity Meters for Commercial properties

(Effective from November 2026)

(exclusive of VAT)

Deemed Rates:

The Deemed Rates will apply where we supply electricity to premises without an agreed contract. This will typically occur where a business moves into premises already supplied by Voltx. The applicable deemed rates will remain in effect until a contract is entered into or the supply to the premises discontinued.

Out-of-Contract Rates: Out-of-contract rates apply if your current energy contract ends with Voltx and you have not agreed a new tariff with us or successfully switched to another supplier.

Deemed/ Out of Contract prices for Electricity Meters (Effective from November 2026) (exclusive of VAT)

Note: The rates shown above are indicative ranges only. The exact Deemed or Out of-Contract rate will depend on the relevant DNO area. These rates are subject to regular review and may change from time to time, including monthly. In exceptional circumstances, such as geopolitical events or matters outside our reasonable control, rates may change significantly.

Updated rates may take time to appear on our website, even if they are already reflected on your invoice. Please contact our Support Team to confirm the rates applicable to your account.

All prices are exclusive of VAT.
